## DETAILED ACTION

### *Response to Amendment*

1. The amendment filed by the application in paper No. 7 (filed 12/27/2002) has been considered and made record. The applicants' arguments filed in Paper No. 7 have been found persuasive in regards to the merits of Barrager et al. Consequently, the previous rejection (in Paper No. 5) has been withdrawn.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakanishi et al (US 4,226,018).

As applied to claim 3, Nakanishi et al discloses a method of manufacturing a thin-film magnetic head material, the head material including: providing a detection element (8) to be used for detecting an amount of processing when specific processing is performed on the head material (1a, Fig. 2); an electrode (5) for or capable of being electrically connected the detection element to an external device, such as a magnetic disk medium or drive; and a conductor (6) for electrically connecting the electrode to the detection element; and forming the electrode in the inter-row cutting section (A, Fig. 1).

Art Unit: 3729

As applied to claim 4, Nakanishi et al discloses the detection element and the conductor are formed in the intra-row cutting section (B, Fig. 1).

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai V Nguyen whose telephone number is (703) 308-1791. The examiner can normally be reached on M-F (7:30-4:30).
